

The Ashton

The craftsman styling of the Ashton is evident from the curb. The inviting front porch with stone based tapered columns harkens back to an earlier era. You are greeted in the 2 story foyer which is flanked by the living room and dining room. The open kitchen, dinette, and family room is accented by the kitchen at one end with its center island and the fireplace at the opposite end. Upstairs is the sumptuous master suite, featuring a tray ceiling and large closet and master bath with whirlpool, separate shower, and double vanities. The home is complete with a full unfinished basement and a three car garage.
